JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Rule 72. No meat of any kind shall be sold or exposed for sale from any animal that was diseased at the time of slaughter.

Rule 73. No veal or lamb shall be sold or exposed for sale from an animal that was slaughtered before it was 4 weeks old.

Rule 74. Every room where meat, poultry, oysters, or fish are sold or exposed for sale shall be properly and effectually screened so as to prevent the admission of flies.

Rule 75. No poultry, except live poultry, shall be sold or exposed for sale undrawn.

Rule 76. Where meats are sold in the same place with groceries there must be separate counters and meat blocks, as well as proper storage for protecting the meat. No dressed meat or poultry shall be hung outside the place of sale, exposed to the street atmosphere. [Regulations, board of health, adopted Jan. 22, 1910.]

FRUIT—CARE AND SALE OF.

Rule 77. No decayed or stale fruit or vegetables shall be sold or exposed for sale.

Rule 78. No person selling fruit or vegetables shall so expose them on the sidewalk or otherwise, except on tables or benches at least $2\frac{1}{2}$ feet high. (Regulations, board of health, adopted Jan. 22, 1910.)

FOOD—SALE OF IMPURE OR ADULTERATED FORBIDDEN.

Rule 79. No person shall sell or expose for sale any impure or adulterated food or drink of any kind in the city of Altoona. (Regulations, board of health, adopted Jan. 22, 1910.)

BAKERS.

Rule 80. Every baker or vendor of bread or other meal food products shall file annually with the secretary of the board of health a certificate signed by a registered physician setting forth that after personal physical examination it is manifest that the person is free from tuberculosis or other contagious or infectious disease.

Rule 81. Every room where meal food products are either baked or sold shall be subject to inspection by the health officer at any time. Bakers' wagons must be covered. Implements and receptacles for meal food products must be kept in a sanitary condition. Meal food products must be screened from flies at all times. (Regulations, board of health, adopted Jan. 22, 1910.)

COMMUNICABLE DISEASES—NOTIFICATION, PLACARDING, QUARANTINE, DISINFECTION OF HOUSES AFTER.

Rule 82. The following diseases are communicable within the purposes of these rules, viz: Actinomycosis, anthrax, bubonic plague, cerebro-spinal meningitis, chicken pox, cholera, diphtheria, epidemic dysentery, erysipelas, german measles, glanders, hydrophobia, leprosy, malarial fever, measles, mumps, pneumonia (true), puerperal fever, relapsing fever, scarlet fever, smallpox, tetanus, trachoma, trichinasis, tuberculosis (specify form), typhoid fever, typhus fever, whooping cough, yellow fever, or any eruptive skin diseases. It shall be the duty of every physician who discovers a person suffering with any of the diseases catalogued above to report the same to the department of health within six hours of the time of his diagnosis.

Rule 83. If the diagnosis reveal smallpox, scarlet fever, or diphtheria, the health officer shall immediately post in the most conspicuous place on the outside of the residence of the patient a placard stating the name and character of the disease and warning the public and the occupants of the house against breaking quarantine. The board of health at its discretion may quarantine a house containing a patient suffering from any other contagious or infectious disease.

Rule 84. If the diagnosis reveal typhoid fever, mumps, measles, chicken pox, or whooping cough, the health officer shall place one or more placards bearing the name of the disease, in a conspicuous place or places upon the premises within which the disease has appeared. Quarantine is not enforced in any of the above-mentioned diseases except measles, in which modified quarantine shall be observed. The patient is simply isolated. No person suffering from any of the above diseases will be permitted to attend school prior to recovery. Other persons of such a household may return to school if well at the expiration of 21 days from date of last exposure, except in case of typhoid fever, in which there shall be no school exclusion.

Rule 85. No person shall tear down or in any way deface any placard or signal of warning placed under direction of the board of health.

Rule 86. Any person found to be suffering from smallpox in any form shall be immediately removed by the health officer to the contagious disease hospital, there to be isolated and confined and properly cared for until finally discharged. If, however,
